BANKS AND BANKING

In another column of this page appears a letter from a local citizen dealing with gross bank practices.

The letter is interesting from the viewpoint of the business man and all other persons who have dealings in any way with the bank. It gives publicity to a situation which has existed in Bassano for some time, and perhaps exists in other towns as well. It is a situation about which a number of complaints have recently been heard; a situation which was noted at a recent board of trade meeting and the cause of that body inviting E. J. Garland, M. P., to come to Bassano and give a talk on banks and banking.

The writer of the letter gets right down to cold figures when he discusses the relative costs of doing business by way of cheque and post office money order.

In these days of fine financing a dime saved is a dime earned, and "citizens" can hardly be blamed for the stand he takes.

Some people do business with the bank because it is the only way their business can be properly managed. Scores of others use the bank as a convenience and are willing to pay a small amount for the privilege. But if these latter find the bank charges are becoming excessive, if they discover they can manage their financial matters by other means at less cost, then they are going to change over to the other method in order to save a few dollars that require so much hard work and patience to gather. Then the bank instead of increasing its revenue, will lose considerable business, goodwill, and prestige.

DOLLAR WHEAT

North Dakota farmers have managed to hold their wheat at a dollar a bushel.

There is nothing new in a scheme of this kind. It has been tried before with coffee, with copper, with rubber, and with wheat. The result has been the same in every case—failure.

So many other countries produce wheat that the exportable amount from the North Dakota farmers, even the total exportable surplus of the United States, would be negligible, and have no effect on the world price. It would stimulate greater production in other countries, and in the end the world wheat situation would be worse than before.

The hold-for-dollar wheat movement would probably result in the farmers selling at the market price unless the U. S. Farm Board grants a bonus to bring the price up to the dollar figure, and in view of past experience of the board, this move is very unlikely. We certainly hope the North Dakota farmer does not get a dollar a bushel for his 1932 wheat crop, but if he does, it won't be because he is holding off for that figure. The increase must be due to the natural demand and increased purchasing power of the consumer.

OLD WAR ENEMIES WILL FLY ATLANTIC TOGETHER

LONDON, July 28.—A German and a British airman, who tried to kill one another 15 years ago in battle, announced tonight they intended to make a westward air crossing of the Atlantic as a cruise to show the futility of war.

The airman was Baron von Schleich, so-called "black knight" of the German flying corps, and Major Christopher Prager, known as the "mad major" of the old British Royal Flying Corps. They plan to make the trip, they said, in the near future and they will be side by side in the cockpit.

"Fifteen years ago we fought in the air over the battlefield, each seeking the other's life," said Baron von Schleich. "Now we are going on a peace crusade across the Atlantic, and our only bitterness arises from those ineffectual efforts in the war years."

"I have come to realize the futility of war. It is insane and purposeless. That is why Prager and I have schemed to make this flight. We want to meet, we who are old foes, and cement the ties of peace across the Atlantic."

POOL IS PROMISED A HEAVY SURPLUS

REGINA, Sask., July 28.—Anticipation here of the Saskatchewan Wheat Pool will complete the present crop year with a surplus of over one million dollars, after providing for all operating costs, was made by A. P. Sproule, director for wheat pool district No. 2, at a public meeting under the auspices of the local pool committee in the Regina City Hall.

Commenting upon this result, Mr. Sproule remarked that the agricultural co-operative movement "has been able to withstand the shock of the depression better than most mercantile concerns."

GERMANY THREATENS TO WITHDRAW FROM THE DISARMAMENT CONFERENCE

GENEVA, Switzerland, July 28.—Germany threatens to leave the world disarmament conference today, having up to this point, the declaration to be adopted before adjournment was entirely unacceptable.

Count Rudolf Nading, German spokesman, said today that the decision is reserved after the summer recess it will be within the discretion of Germany unless the delegates recognize before adjourning Germany's right to be within the equality among the other nations of the world.

News of the Week

NORTH DAKOTA FARMERS HOLD FOR DOLLAR WHEAT

MINOT, North Dakota, July 28.—The hold-for-dollar wheat movement in North Dakota was spreading at a rapid rate today. Declaring they cannot make a profit on the present grain prices, farmers have organized to boost the market for their wheat to a dollar for their product.

A federal estimate that North Dakota's wheat crop in 1939 will be 134,000,000 bushels, one-third of the United States total, an increase of one third or more in the price will mean considerable. The first movement for higher wheat prices was started recently by Dell Willis, Tulsa farmer, has spread to several hundred townships with the producers signing pledges to keep their grain until the dollar level is reached at Winnipeg for the best grades. The holding of wheat started August 1, and Willis said it would be kept until there is a demand for it at the \$1 minimum. Willis said he had received releases inquiring about his plan from farmers in Washington, Colorado, Oregon, Wisconsin, Iowa, South Dakota, Minnesota, and Nevada.

PARLEY FAILURE HOPED FOR BY THE UNITED STATES

WASHINGTON, July 28.—"Empire is the worst enemy we have in the United States." This page-wide headline is typical of many appearing in the American newspapers. It indicates the state of mind of this country's American state toward the imperial conference at Ottawa. The imperial conference at Ottawa, which is being held at Ottawa partly to plan the next imperial conference, is taking in the conference. The story is that the delegates to the imperial conference at Ottawa, which is being held at Ottawa partly to plan the next imperial conference, is taking in the conference. The story is that the delegates to the imperial conference at Ottawa, which is being held at Ottawa partly to plan the next imperial conference, is taking in the conference.

Correspondence

BANKING CHARGES

Editor The Bassano Mail, July 28, 1939
I would like to bring to the attention of readers of The Mail the condition of the banking business in Bassano.

The situation in Bassano, and possibly at other points in the province, has reached a point where the bank's charges for operating an account, exchange on cheques, interest rates, etc. have become so excessive that it doesn't pay to do business with them.

I have been operating a current account in the local bank here and paying 50 cents a month or more for the privilege of writing a half dozen odd cheques each month. In addition to this operating charge there is, of course, the federal stamp tax, and exchange on cheques from other points outside Bassano. It is this state of affairs that makes each month in terms of present day financing for a small business man when every item of expense must be watched closely.

In Canada the bank keeps level above the \$200 mark there is no operating charge, but very few small business men can keep their accounts above that mark today. Fifty cents a month is a lot for the privilege of writing a half dozen cheques, and drawing some business men who must write a large number of cheques pay several dollars a month.

Why pay these excessive charges? Why do business with the bank at all?

One can save money by paying cash for bill owing in town and paying out of town accounts by post office or express money order at less cost than writing a cheque. For example, to pay an account owing in Calgary amounting to say, \$10, it will require 25c exchange on a cheque, 3 cents federal tax, and two or three cents operating charge by the bank, making a total of thirty cents. The same account can be paid by money order at a cost of only ten cents. If the bill is \$5 or less the money order costs only five cents, and from \$10 to \$30 the cost of writing a cheque, still only half the cost of writing a cheque.

Of course the bank will issue money orders, but they are open only from 10 a.m. to 3 p.m. The post office hours are much more convenient for most people. Anyway, why give the money order business to the bank when this institution is squeezing the odd cents out of its customers in so many ways?

Before the bank charges a customer for operating his account, the customer is asked to sign an agreement giving the bank permission to make the charge. I have been given an understanding that some customers are paying operating charges on their accounts, but others who are not paying the charge, are not paying it. If this is true, why these special privileges allowed?

In past years we have been paying different rates of exchange on cheques written on the Royal Bank at other points and cashed at the Royal Bank branch here. This exchange rate has been reduced to the twenty-five cents. Why, I would like to know, has the rate been increased at a time when every man and every woman is kept on the jump trying to meet expenses and worried sick with overhead and the rights of the bank? I am making no accusations on this point, merely asking questions. I am sure that everyone with a bank account would like to know the answers.

I would like to hear others' views on the important question of bank charges and banking methods. A CITIZEN.

PARTRIDGE SAVES CROP

ALFORD, Minn., July 28.—C. H. Ralmond, farmer, cared for a partridge injured by a mowing machine, and saved a rich reward.

He gave first aid to the bird and placed it back on its nest of 28 eggs. The eggs were hatched and other partridges came to the farm. Recently the farmer saw an army of weevils marching on his best field. He saved his crop by feeding the one he had befriended. He reinforced the domestic fowl to chase the weevils from the field. They saved my crop, and no hunter will be permitting on my property," he remarked.

WHEAT QUOTA NOT LIKELY

RESULT OF PARLEY

OTTAWA, July 28.—From present indications wheat does not seem likely to play the dominant part in the imperial conference deliberations which are getting under way. The Dominion wheat quota has virtually named from the British scheme. Australia admits that she has been unable to forward a definite proposal for a tariff preference. Large grain interests in western Canada object to a tariff preference on wheat on the ground that it is likely to do more harm than good. The point which opponents of the wheat preference have made is that Empire is a net exporter of wheat. The preference by the British Empire wheat to other markets would tend to drive down the world price in regard to wheat. The position is different. Meat exporting dominions are urging a preference in the British market. South Africa has joined Australia in a plot for a share of the British meat trade. South Africa observes that only about 10 per cent of the empire beef consumption is obtained from empire sources.

GOLD PROSPECTORS INVADE GREAT BEAR LAKE DIST.

Interest at Great Bear Lake is swinging from the better-known districts of Rebo, Lindaby and Rebo, towards Conjuror Bay, according to information reaching Calgary Sunday from a recent visitor to the northern inland water area. The discovery of mineral-bearing areas have attracted much attention. It is gold that is drawing prospectors south from the more commonly visited areas toward Conjuror Bay. Considerable prospecting and staking is being done in the district following reports of gold discovered some weeks ago.

FARMERS AND LABOR PLAN NEW POLITICAL REGIME

SASKATOON, July 28.—In separate meetings Saturday Farmers and Laborers of Saskatchewan met here today to complete plans for a political campaign they hope will carry them to power in the next provincial election.

While the two organizations are meeting separately they are working in combination. Each day the leaders meet together, and Wednesday there will be a joint political convention of both groups.

The radical political program of both groups will be up for review and endorsement. In his presidential address today Mr. Maclean delivered a direct attack at the capitalist system, denounced the "invisible hand" of high finance which, he said, controls governments in Canada and called for nationalization of the banking and credit systems of the country.

SOUTH FARMER SHOT AND HIRSH MAN IS WOUNDED

MEDICINE HAT, July 28.—A new party being advertised in connection with the murder Saturday of Peter Borman, of Conroy, is to the effect that it was a case of attempted robbery. It was known that the Borman brothers had disposed of a quantity of grain recently, and that a considerable sum of money was in the house at the time. The hard oppression put up by Odegar, hired man, which resulted in his being struck by a bullet in his breast, is thought to have driven him to his possible robbery attempt.

At an early hour Saturday morning Borman was shot down, and when he answered a call at the door, Odegar, going to his aid, was shot and wounded, and the murderers hastily departed.

When we do a car repair job for you you get the benefit of many years experience at this work. Repairs and adjustments made on cars of all makes. Electrical work is one of our special lines.

SOUTH FARMER SHOT AND HIRSH MAN IS WOUNDED

MEDICINE HAT, July 28.—A new party being advertised in connection with the murder Saturday of Peter Borman, of Conroy, is to the effect that it was a case of attempted robbery. It was known that the Borman brothers had disposed of a quantity of grain recently, and that a considerable sum of money was in the house at the time. The hard oppression put up by Odegar, hired man, which resulted in his being struck by a bullet in his breast, is thought to have driven him to his possible robbery attempt.

At an early hour Saturday morning Borman was shot down, and when he answered a call at the door, Odegar, going to his aid, was shot and wounded, and the murderers hastily departed.

WANT ADS

Want Ads cost two cents a word, and no charge is made for name and address. Payable in advance; cash must accompany ad copy. Legal notices, 12 cents a line for first insertion and 10 cents a line for each subsequent insertion.

LOST—Brown mare with white face, 4 years old, about 1100 — **K T** lbs., branded on left jaw. Also unknown brand on shoulder. Lost Thursday, July 25, at Road. Please notify John Kasdorf, Rosemary. 53-54p

Raising the average child in the average family until it is 18 costs its parents about \$7,500.

Premier Says No Firm Foreclosures
Arrangements have been made between the provincial government and the mortgage companies under which no firm mortgage will be foreclosed without the approval of the Alberta Debt Adjustment Board and no foreclosures will be made while interest payments are being maintained. Besides the promises not to foreclose, arrangements were reached to have payments made in grain.

U. F. A. CONVENTION WILL BE HELD IN COUNTESS
The annual convention of the New Valley U. F. A. District Association will be held at Countess this year. The date has not yet been set, but the meeting will be held in the Countess Hall, and there will be a picnic at the Ferguson farm.

IRRIGATION ASSOCIATION TO GATHER AT BROOKS
The Eastern Irrigation District Association meets at the C. P. R. farm, Brooks, tomorrow, Thursday, July 25, in their annual gathering. Hon. S. Plummer, Bassano wheat pool director, is attending, and will give a talk. The gathering will take the form of a picnic and business meeting.

THE PICTURES

Brosey is the word that adequately describes "Maybe It's Love" showing at the Orpheum Theatre Thursday, Friday, and Saturday of this week, July 25, 26, and 27. The theatre management, through some mistake in shipping the films from Calgary, was unable to play "Archie LaPine" looked for these dates and "Maybe It's Love" has been substituted.

This is a delightfully entertaining picture, imparting the carefree gaiety and romance that is part of modern college life. Young people will adore it, while the old-timers can sit back and enjoy a few hours of renewed youth and amusing memories.

A fast moving story of campus life, it presents one of the most authentic pictures of undergraduates days. Miss Joan Bennett portrays a lovely collegiate belle who succeeds in gathering an all star football team to fight on the gridiron for her Alma Mater. Joe E. Brown, that funny comedian with his huge mouth and comical sayings and actions, has the funniest role of his career as a "has been" football star pushed into the background by the all-stars.

The picture is a riot of laughs and thrills, with Joe E. Brown right in the middle—and in a middle—most of the time. Maurice Chevalier is coming next week, Thursday, Friday, and Saturday, August 4, 5, and 6, in "One Hour With You," with a raft of new song hits.

With good management there is still money in farming. Fifty years ago, Dr. Charles Farmer paid \$500 for a farm, and last week he sold it for over twice as much. The 1929 shipment of Egypt is increasing its import duties on several commodities. India expects its present cotton crop to total 10 million bales. The life of a single hair on a human head is estimated to be from six to ten years.

LOCAL NOTES

The town public works department is re-building the sidewalk from the Knox Church corner west to the swimming pool, on the south side of the avenue.

Jaques Bulmer recently made a number of changes in the interior of his home. It now has a greatly improved appearance.

Miss McKee, of Calgary, spent the week-end in Bassano, guest of Mrs. L. E. Newman.

Mrs. Lars Jensen, of Makenabaw, is a patient in the Bassano Hospital, she recently underwent an operation for appendicitis.

A daughter was born to Mr. and Mrs. C. Duncan, of Cassels, on July 15, at the local hospital.

Dr. Jack Matheson, of Gull Lake, Saskatchewan, stopped in Bassano for a few hours last Monday to call on Dr. Scott and other friends in town.

Dr. Matheson was returning to Gull Lake after a short holiday at his home in Granum.

Ben Gray and Mr. and Mrs. Joy Gray, recently of Glen, are reported to have lived on horsebats in the Sturgeon Lake district, Peace River country.

Sam Talkington and Col. O. F. Goff, former Brooks agitators of few words, are located near Ennals in the Peace River country.

Mr. and Mrs. A. P. MacCallum, of Glenora, were callers in Bassano last Monday.

Another car accident happened on the main highway to Crowfoot last Saturday. The occupants of the car received cuts and bruises.

Billy Boyce and family are moving to Red Deer within a few days. Mr. Boyce has acquired a farm about 50 miles west of Red Deer.

Miss Betty Hamer, age eight and a half years, passed with first class honors in the Toronto Conservatory of Music examinations in Calgary recently.

Mr. and Mrs. Joe Harris and children have moved to the Chas. Hagger house recently vacated by Wm. Noble.

Mr. and Mrs. H. Phipps have rented the house vacated by Mr. Harris.

Mr. and Mrs. B. M. Hall and Dorothea, of Hythe, northern Alberta, were guests for a few days this week at the Ben S. Plummer and Harry Jones home.

Miss E. McArthur left for Innisfail last Thursday for a month's vacation with her parents and sister.

Dr. Scott's plane was somewhat damaged Thursday evening when making a difficult take-off at Duchon after the doctor had made an emergency call to that village. The plane will be laid up for repairs for a few days.

P. Currie, H. T. Johnson, W. O. Bredin, A. P. Pierson, W. J. Smith, Harvey Smith, W. K. Webb, all motored to Stettville last Thursday afternoon to see the upending of the new Stevieville oil well.

Dr. and Mrs. B. E. Barlow, Mrs. H. D. Bacon and Miss Mamie Emil also motored out for the event.

Dr. A. G. Scott and Pilot Howard Sandgathe flew to Stettville last Thursday afternoon to see the oil well upended.

Mrs. M. D. Macdonald and daughter Joyce are visiting with relatives in Providence, Rhode Island.

WHEAT CONTINUES RISE

WINNIPEG, July 27—Staging its second successful major rally, wheat futures on the grain exchange closed 2 1/4 to 1 1/2 cents above the previous close, July 29-1; October 61-4; December 62-3-4.

WATCH OUT FOR THE WEBWORM

If the number of moths is a fair indication, the next plague of pest webworms will be of greater intensity than the first, which caused so much concern to Bassano gardeners and did such heavy damage to gardens.

Millions of moths are now hatching about and swarming in the woods of recent lots and along the ditch banks. Worms will hatch from the eggs laid by these moths, and unless precautions are taken, the pest will cause heavy damage to garden produce.

Gardeners would be well advised to lay in a supply of Paris green to dust the worms, and also to use any other steps that may check the expected invasion.
